Philippines Telecom builds 5G base stations

Overview

Does Globe Telecom have 5G coverage in the Philippines?

Globe Telecom (Globe), the Philippines' largest mobile network operator (MNO), has significantly widened its 5G coverage in the first quarter of 2025, reaching 98.71% of Metro Manila and 97.97% of key cities across Visayas and Mindanao, the company announced this week.

How many 5G sites are there in 2024?

Globe Telecom Inc. said Friday it rolled out 256 new 5G sites in the first half of 2024, expanding its 5G network coverage across the country. The latest development brings Globe's 5G outdoor coverage in the National Capital Region (NCR) to 98.45 percent.

How many 5G sites did Globe deploy in Q1 2024?

Globe, the country's mobile leader, deployed 27 new 5G sites across the Philippines in Q1 2024 as part of its commitment to providing cutting-edge technology and superior connectivity to its customers.

Where are 4G networks used in the Philippines?

The majority of devices (81%) are "latched" onto the operator's 4G network. In the Philippines, up to one third of its population resides within Metro Manila, which comprises 16 cities, including the three most populous cities: Quezon (2.9 million), Manila (1.8 million), and Caloocan (1.6 million).

Will Globe's new 5G sites boost outdoor coverage in NCR & Mindanao?

Globe's 27 new 5G sites boost outdoor coverage to 98.35% in NCR and 92.86% in key Visayas and Mindanao cities, supporting over 6M devices in Q1 2024.

Why are telecom towers expanding in the Philippines?

While large cities remain primary targets, the Philippines telecom tower expansion is also improving connectivity in remote towns where signal gaps persist. Thanks to regulatory support and market competition, more towers are going up in rural Luzon, Visayas, and Mindanao. These moves are critical.
