

SolarInvert Energy Solutions

Photovoltaic solar panel cabinet

Overview

What are Apollo solar pre-wired cabinets?

The Apollo Solar Pre-Wired Cabinets are the latest in the line of products designed to meet the exacting needs of installers. In our factory, we assemble a complete solar energy system with Charge Controllers, Inverter/Chargers along with all the proper size Circuit Breakers and external connectors.

What is included in a solar panel cabinet?

Also included are labelled brass terminals for inverter, batteries and battery charger. The cabinet includes built-in double-pole isolators for the solar panels, and bypass switch for the PL regulator so it maintains it's memory and settings, for when the main battery fuse is withdrawn during servicing.

Are pre-wired panels suitable for indoor installations?

Indoor Conditions – Pre-wired Panel products are intended for indoor installations. The Apollo Solar Pre-Wired Cabinets are the latest in the line of products designed to meet the exacting needs of installers.

What are Apollo solar pre-wired panels (PWP)?

Apollo Solar Pre-Wired Panels (PWP) save time for the installers on site and they eliminate the possibility for errors. The necessary Charge Controllers and Inverters are mounted, along with the Circuit Breakers and wire termination point on an aluminum panel. The internal wiring is completed and the panel is fully tested in our factory.

Are pre wired cabinets weatherproof?

Weatherproof – The Pre-Wired Cabinets are weatherproof and designed for outdoor installations. Add-on Options – The cabinets are built with room to hold more options and features than the Pre-Wired Panels.
