

## SolarInvert Energy Solutions

# Photovoltaic solar panels installed in Somaliland

## Overview

---

Can solar panels be used in Somalia?

Somalia's abundant sunlight makes it ideal for solar energy. Solar panels convert sunlight into electricity, which can be used immediately or stored in batteries for later use. Our systems are designed to withstand Somalia's hot climate and perform efficiently even on cloudy days.

Can solar energy reduce energy costs in Somalia?

The simulation results using PVGIS revealed that the solar PV installation in Somalia produced two-fold the energy amount compared to PVs installed in Germany. Hence, RE, such as solar energy, can reduce electricity costs and the negative environmental impacts .

Is solar energy sound in Somalia?

The average yearly irradiation for 11 years of Somalia was obtained in terms of maximum radiation in Bari and minimum radiation in the Middle Juba region. Therefore, the data demonstrated that solar radiation is typically sound within Somali territory. Fig. 7. Diagram indicating the potential of solar energy based on the map of Somalia [51, 59].

Can PGIS-Solargis be used to estimate solar energy yield in Somalia?

The PVGIS-Solargis database can be used to estimate PV energy yield for various locations in Somalia, demonstrating the potential of solar energy in the region. Fig. 12. The estimated monthly electricity generation and recorded PV generation in the Bacadweyne site. 8. Discussion of key findings.

Will solar energy be exhausted in the future?

The sun's energy potential is unmatched as the amount of solar radiation can meet the global electricity demand. Hence, the possibility of solar energy being exhausted in the future is insignificant as it is sustainable and renewable. Furthermore, solar energy is considered a non-polluting, reliable,

and clean energy source [ , , ].

When will a pre-bid conference be held in Somaliland?

6. A pre-bid conference shall be conducted physically by the Employer, the Ministry of Energy and Minerals, Hargeisa, Somaliland on April 5, 2025, at 9:30 Am Hargeisa, Local Time No site visits shall be organized by the employer, but bidders are encouraged to make site visits to familiarize themselves with the scope of work envisaged. 7.

## Photovoltaic solar panels installed in Somaliland
