Replace the battery pack inverter

Overview

Quick and Easy Inverter Repair and Battery Replacement Guide" This comprehensive guide walks you through the steps to quickly and easily repair your inverter and replace its battery. What to do with old inverter portable power packs?

Rather than throw out old inverter portable power packs, I merely replace the sealed lead acid batteries inside them with a more superior deep cycle battery. These Eliminator Power Boxes were notorious for having defective and/or poorly performing batteries. This was originally purchased at Canadian Tire.

How to fix a broken inverter battery?

SOLUTION: The only solution for this problem is to replace the battery. This means that the life of the battery is complete and there is no way to repair it. You can easily purchase an inverter battery yourself by either going to the market or ordering it online. You can also ask a professional to replace the battery for you.

How do I add a battery to my inverter?

When the inverter connects to a battery, add the battery and set battery parameters. To add a battery, choose Maintenance > Subdevice management on the home screen. Figure 7-9 Adding a battery.

How do I replace my battery pack?

One way to increase the range of your Razor EcoSmart Metro scooter is to replace the existing battery pack with a new one made with six 12 Volt 9Ah batteries. Our 9Ah batteries are the exact same size as the original 8Ah batteries so they will fit perfectly.
