

SolarInvert Energy Solutions

Round solar integrated machine outdoor

Overview

What are the different types of outdoor solar lights?

Based on their light output, outdoor solar lights fall into three general types: motion-activated, dusk-to-dawn, and timer-controlled. Because of solar cell size and battery capacity, the solar energy gathered is a limited resource, so consider when you want the lights to shine and for how long.

What are the best outdoor solar lights?

Determine what you need to be illuminated and where you have space to install outdoor lights to find the best outdoor solar lights for your space. Our top pick for most outdoor spaces is the AloftSun Motion Sensor Solar Landscape Spotlights. During testing, they withstood our durability tests, were easy to use, and were bright enough to read under!.

What are the best solar landscape spotlights for outdoor spaces?

Our top pick for most outdoor spaces is the AloftSun Motion Sensor Solar Landscape Spotlights. During testing, they withstood our durability tests, were easy to use, and were bright enough to read under! These spotlights can detect motion from as much as 33 feet away, depending on the setting.
