## Overview

---

Who makes cellular base stations in Russia?

For example, Yadro has opened the first production line in Russia for electronic modules for cellular base stations, Izvestia was told by X Holding, which it belongs to. This is one of the key production elements required for a full-fledged large-scale production of base stations, which is scheduled for the end of this year.

Will Russian base stations speed up the development of Russian components?

Experts consider the mechanism timely, but emphasize that it will not speed up the development of Russian components. In early October 2022, it became known about the decision of the Government of the Russian Federation to support manufacturers of Russian base stations for 4G- and 5G networks .

How many base stations are there in Russia?

According to Vedomosti, by the end of November 2020, there are about 90 thousand base stations in the Russian capital, and with the launch of 5G networks, the number of such equipment will at least triple.

How many LTE base stations does MTS have in Russia?

MTS is putting 200 domestic LTE base stations into trial operation on its existing network in 37 regions of Russia. This is stated in the company's message. MTS will install and put into pilot commercial operation most of the 200 LTE 800 and LTE 1800 base stations by the end of the year.

Will a new LTE base station be made in Russia?

The head of the Ministry of Digital Science Maksut Shadayev said earlier in 2021 that an agreement had been reached with two manufacturers on localization in the Russian Federation, the transfer of rights to Russian partners for the production of modern LTE base stations.

Will Russia support Russian base stations for 4G & 5G networks?

In early October 2022, it became known about the decision of the Government of the Russian Federation to support manufacturers of Russian base stations for 4G- and 5G networks . { {quote 'As for 5G and 4G, we have introduced a restriction on the use of new foreign base stations since 2023, now a lot of work is underway with telecom operators.
