Russian new energy upgrade battery cabinet

Overview

Should Russia create an infrastructure for EV charging stations?

Russia must also “create an infrastructure for charging stations” for EVs, he said. Rosatom announced on November 23 that it had established a new subsidiary — Renera — dedicated to the manufacture of energy storage systems.

What will Russia's new lithium-ion plant do?

The plant will focus on the production of lithium-ion cells and energy storage systems and will have a total annual battery manufacturing capacity of at least 3 GWh. “The signals we receive from the Russian market indicate that the production volumes we planned a year ago may be insufficient.

Did Rosatom buy Enertech?

The Russian nuclear corporation Rosatom announced plans to build the battery factory in the spring and at the time had taken a 49 per cent stake in Enertech International, a South Korean manufacturer of electrodes, lithium-ion cells and energy storage systems.
