# Self-operated outdoor power supply in winter

## Overview

---

Do you need a portable power source for winter sports?

Wintertime may seem like a period of tough times, but it can also offer a period of fun and enjoyment in the cold wintery conditions. Many winter sports require you to be outdoors, often deep into secluded areas. A portable source of power can make sure you are able to heat food, power your electronics and stay warm while outdoors.

Do you need a backup power supply for a winter storm?

If this happens, you need a strong backup power supply that can act as an additional energy source for your home. A portable power source like the RELiON Outlaw 1072S Portable Power Station can provide as much as 72Ah to help make sure you can have peace of mind and security during the most severe winter storms.

Are portable power stations good for winter sports?

Portable power stations are powerful enough to create an engaging event outdoors and power outdoor theater viewings, bars, and dances. Wintertime may seem like a period of tough times, but it can also offer a period of fun and enjoyment in the cold wintery conditions. Many winter sports require you to be outdoors, often deep into secluded areas.

Why do you need a portable power station?

A portable power station can help make sure you have the extra power needed for small to medium appliances. Off the grid, you can also use a power station to run things like: When the temperatures drop, the possibility of getting stuck in harsh conditions outdoors rises significantly.

Can a portable power station lower heating bills?

While at home, you can use a portable power station to lower heating bills by focusing energy on portable heaters and heated blankets in only specific

rooms versus turning the heat up in your whole house.
