Selling solar photovoltaic panels

Overview

In this guide, we'll cover everything you need to know about selling solar panels, including the how, the why, and the where to do it. Let's get started. Why bother selling solar panels in the first place?

.

Should you sell solar panels?

Solar panel sales have grown significantly in recent years due to the increase in public awareness of the environmental and economic benefits of solar energy. If you are selling solar panels, there are a few things you need to keep in mind to be successful:.

Where to sell solar panels?

The major solar distributors sell to all types of solar installers — residential, commercial, and utility-focused. Some of the biggest distributors in the U.S. include BayWa r.e., Wesco, and CED Greentech. Now that you know the why and the how, it's time to get in front of customers. Here are great 5 places to sell solar panels. 1. Door-to-door.

Are solar panels a hard sell?

Thanks to the rising popularity of solar energy in the U.S., it's not really a hard sell anymore. In fact, a Pew Research Center survey from 2019 found that 46% of U.S. homeowners had given serious thought to adding solar panels to their homes in the past year. Want to sell more solar panels?

EagleView can help you.

How do you sell solar energy?

Offer incentives to buyers. Many people are interested in solar energy but are hesitant to invest because of the upfront cost. Offering incentives, such as rebates or tax credits, can help increase sales by making the initial investment more affordable for potential buyers. Use Solar software for business efficiency.

Should you sell your solar energy business?

This means selling to them is typically easier because you don't have to sell them on solar energy itself, freeing you up to focus on the value your particular business brings compared to the competition. One of the best ways to approach this strategy is by joining the communities and providing your insight and expertise for free.

Should you sell your home if you have a solar system?

"Most homeowners will be able to recoup the current value of their solar system when they sell their house," says Lane. In a review she conducted of over 400 home listings, she found that solar-equipped homes sold for 6.8% more than comparable homes without.
