

## SolarInvert Energy Solutions

# Serbia Silent Power Generation Container

## Overview

---

Six generation units with a combined capacity of 1650.5 MW that makes it the largest power facility in the former . TPP Nikola Tesla A was first synchronised on March 27, 1970. It has two chimneys:.

TPP Nikola Tesla operates its own railway with over 100 km of trackage total. The railway is used for transporting from the mines to the power plants. It is independent from the national rail freight transport company.
