

SolarInvert Energy Solutions

Simple outdoor power supply

Overview

Which power supplies are best for off-the-grid power?

1. EcoFlow Delta 3 Plus EcoFlow power supplies have long been a favorite of ours, and after extensive tests, the Delta 3 Plus proved an insight into the next generation of off-the-grid power. Specs-wise, you're looking at 1024Wh battery capacity, 2400W output, and a great port selection.

Are portable power stations a good choice?

Portable power stations can deliver power when you need it most, whether during power outages or just for an off-grid adventure. These handy electricity suppliers vary in size, output, and energy source, not to mention durability.

Is a 3000W power supply a good choice?

Specs-wise, it's well-equipped for power back-up, with a 3000W continuous power output, and also includes a Uninterruptable Power Supply features, which is essential for units of this size. There are improvements we'd make here and there, including a not particularly good app and AC port placement to the front.
