Overview

What is a Li-ion battery charging & storage cabinet?

Our Li-Ion Battery Charging & Storage Cabinets are designed as a preventative to mitigate batteries exploding with multiple electric fans to keep the batteries cool. What our customers tell about us. Very professional service. the cabinets were well packed and arrived as dispatched.

How many batteries can a lithium phosphate cabinet support?

It supports 48V/60V/72V lithium iron phosphate (LiFePO₄) and ternary lithium batteries. The 6-slot cabinet serves up to 15 users per day, often at smaller retail stores or mall entrances. It is highly flexible and supports dynamic parallel connection of multiple units.

Why should you choose synerflux modular battery cabinets & cabinets?

Our Racks and Cabinets also have battery hot-swapping functions with string protection and individual string disconnection so that you can easily, quickly and safely remove battery units to swap for new ones. Synerflux Modular Battery Cabinets and Racks are also specially treated to reduce the risk of electric shock and short circuit fires.

Does a modular battery cabinet protect a battery?

An essential element of any Modular Battery Cabinet or Racks is of course how well it can protect a battery. With Synerflux's innovatively designed cabinets and racks, you are guaranteed top quality Battery Protection.
