

## SolarInvert Energy Solutions

# Slovakia photovoltaic plant battery components

Support Customized Product

## Overview

---

What is the Slovak Battery Alliance?

Topics from the energy sector clearly promoted battery storage as a necessity for industry and independent energy solutions based mainly on renewable energy sources. The Slovak Battery Alliance (SBaA) is an independent advocacy group.

What is BIPV & how does it work in Slovakia?

From day one, we've been breaking new ground in Slovakia's solar energy sector. We were one of the first company in Slovakia to install Building-Integrated Photovoltaics (BIPV). We led the way with the first-ever 400kWh Battery Backup System, even before container-based battery systems became mainstream.

Why should you choose Slovak solar?

At Slovak Solar, we believe that progress comes from constant innovation. From day one, we've been breaking new ground in Slovakia's solar energy sector. We were one of the first company in Slovakia to install Building-Integrated Photovoltaics (BIPV).

Will INOBAT build a large battery factory in Slovakia?

Meanwhile, InoBat is also planning to build a large battery cell factory in Šurany, southern Slovakia, together with Chinese battery manufacturer Gotion High-Tech. The goal is an annual production capacity of 20 gigawatt-hours with the option of doubling it.
