Equipment manufacturers, distributors and solar service providers!.

What are the different types of inverters?

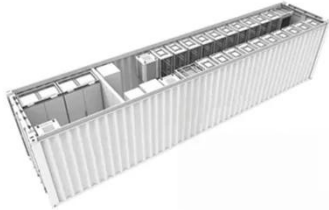

Stand-alone inverters are available with three basic power output waveforms:

square wave, modified square wave (often called modified sine wave) and sine wave. Intertie inverters and utility companies deliver a sine wave. Square wave inverters have the lowest cost and efficiency and are not sold in this catalog.

Which inverter delivers a sine wave?

Intertie inverters and utility companies deliver a sine wave. Square wave inverters have the lowest cost and efficiency and are not sold in this catalog. The price of the better quality inverters is low enough to make square wave inverters an unattractive choice.
