

SolarInvert Energy Solutions

Solar Power Home Project

Overview

Brief Overall:The Sun Jar Solar Light is a way to spice up your garden decor—it's a jar that "captures" sunlight into a pot and lights up an area with a colorful glow of your choice for the night! **Applications:**You can use the Sun Jar Solar Light to light up an area during the night, so you don't have to spend a lot of money.

Brief Overall: That's not a typo—you can start an easy fire via sunlight with just a soda can and a chocolate bar. By polishing the bottom of a soda can with chocolate, you can.

Brief Overall:For those interested in laser engraving or laser cutting, this DIY might suit you! Simply, by taking a magnifying glass, you can focus the rays of the sun into a powerful beam that engraves on most materials and even cuts through weaker materials.

Brief Overall:This one might be self-explanatory, but turning a regular bath into a luxurious hot tub has never been easier—this process can be repeatable for a swimming pool if desired. This DIY requires covering the top of a bank or a tub with a glass layer.

Brief Overall:Although this build is easy, it does require a lot of money, but not nearly enough as an actual solar kit. By utilizing a solar panel meant for charging a phone, you can set up a.
