

## SolarInvert Energy Solutions

# Solar panels directly connected to storage containers

## Overview

---

Expandable/Deployable Arrays: Foldable or sliding panels stored inside the container during transport, deployed on-site for higher capacity. Standalone Solar Container: 100% solar-powered system. Hybrid Container: Solar combined with diesel, wind, or hydrogen for redundancy.

## Solar panels directly connected to storage containers

### Can I run power to a shipping container? Off-Grid Solar Solutions

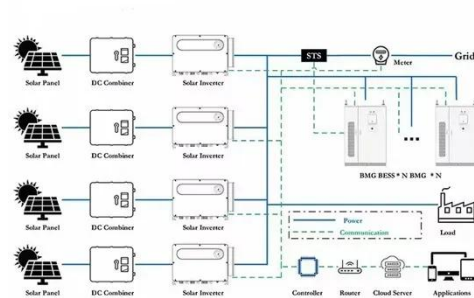

...

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power station using solar panels.
