

## SolarInvert Energy Solutions

# Solar system home prices in the Republic of Congo

## Overview

---

Could solar power change energy consumption in Congo?

Solar power could change energy consumption in Congo. - The Loudima family in Congo have long been without electricity but they have found an environmental solution: solar power. In the remote districts of Pointe Noire, the Congolese start-up Hélios Électricité has installed a solar power plant.

How much solar power does the DRC need?

There is also sufficient for the rural areas around Kinshasa, Mbandaka on the Congo river and the main port of Matadi. It can even be exported over the river to Brazzaville. Currently the DRC only has 2.5 gW installed and no early benefit from the Inga. However solar and wind is available now.

How much does solar energy cost in South Africa?

There is 5 gW of wind and 5 gW of solar within 25kms of existing and planned transmission lines. The cost of producing the solar is only 7 us cents per kW hr compared with 8 us cents per kWhr from the Inga 3 dam as estimated by the World Bank. In the SE the renewable energy has enormous potential from both private and commercial customers.

How much solar energy is available in the SE?

In the SE the renewable energy has enormous potential from both private and commercial customers. In the area around Kinshasa there is a further 6 gW of solar available at 7 us cents per kW hr. There is also sufficient for the rural areas around Kinshasa, Mbandaka on the Congo river and the main port of Matadi.
