Solomon Islands Energy Storage Power Station China Southern Power Grid

Test certification
CE  FC 

Overview

Who is financing a solar energy project in the Solomon Islands?

The Asian Development Bank, Saudi Fund for Development, and Solomon Power are all financing the project. A project is now underway on the Solomon Islands to help the country accelerate its renewable energy generation.

What is a solar hybrid project in Solomon Islands?

The project will finance new solar farms in Guadalcanal and Malaita province, along with a utility-scale grid-connected energy storage system in Honiara. Nearly all of Solomon Islands' grid power is diesel generated. Solar hybrid project 2017 at Taro. Image credit Solomon Power.

Does the Solomon Islands have solar power?

Nearly all of Solomon Islands' grid power is diesel generated. Solar hybrid project 2017 at Taro. Image credit Solomon Power The Solomon Islands of Oceania are an archipelago with a rich history, some of it not so good for the residents there.

What's new at Solomon power station?

The project was completed by MAN diesel for over SBD120m. The new station has been commissioned and is currently in operation. Furthermore to improve the reliability Solomon Power invested in a new 11 kV switchboard, two 1.6 MW diesel generators and two new power transformers at Honiara Power Station.

How is the Solomon Islands project funded?

The project is being funded by a \$10 million concessional loan and a \$5 million grant from the Asian Development Bank (ADB), while the Saudi Fund for Development and state-owned Solomon Power are providing \$10 million each. The government of the Solomon Islands is providing \$7 million.

What is Solomon power's capital expansion programme?

With a capital expansion programme of over SBD1 billion, Solomon Power strives to develop and implement its planned capital and infrastructure projects over the next five years that will support its mission to provide a safe, reliable and affordable supply of electricity to the Solomon Islands.
