

SolarInvert Energy Solutions

Solomon Islands Home Solar Energy System Wholesale

Overview

How many solar homes are there in the Solomon Islands?

“Solomon Islands currently has one of the lowest levels of access to electricity in the region, with over 85% of the population of Solomon Islands still without access to electricity and for this project alone, we received over 6,000 applications to obtain only 2,000 solar home systems,” said Mr Aimaea.

How long do solar panels last in Solomon Islands?

The majority of solar energy systems installed in Solomon Islands last less than 2 years due to bad system design and poor user training. Superfly's systems are designed to last a minimum of 5 years (for basic systems) and 10 years for premium systems.

How many hydroelectric systems are there in Solomon Islands?

The left option uses a canal with pipeline (penstock) and the right option uses a pipeline (penstock) only. There are currently nine hydroelectric systems in Solomon Islands with no system greater than 150kW. Six are operational and these are all community owned with five implemented by the Australian NGO, Apace7.
