Somaliland Operator Communications Green Base Station Market

Overview

What telecommunications companies are in Somaliland?

Blank Somaliland Map. Telecommunications in Somaliland, an internationally unrecognised republic claimed by Somalia, are mainly concentrated in the private sector. A number of local telecommunications firms operate in the region, including Golis Telecom Somalia, SomCable, Sometel and Telesom.

Who are the major mobile operators in Somalia?

Here is a detailed overview of the major mobile operators in Somalia:
Ownership: Sometel, or Somali Telecom, is a telecommunications company headquartered in Hargeisa, Somaliland, an autonomous region in Somalia. It is one of the oldest and largest telecommunications providers in Somaliland.

How is telecommunications regulated in Somaliland?

Somaliland's Telecommunications Sector is regulated by the Ministry of Posts & Telecommunications based in the national capital, Hargeisa. On 13th June 2011, the House of Elders passed the law, without any amendments, on an overwhelming majority of 75 for, 1 against and none abstaining.

Could a lack of standardization affect Somaliland's telecoms sector?

This lack of standardization in Somaliland's telecoms sector could potentially have serious repercussions for the sector and limit the ability of the state to broaden their tax revenues among Somaliland's leading operators.

How does Somaliland's telecoms work?

Somaliland's telecoms consumers are able to make the cheapest local and international calling rates in the world. Customers can conduct money transfers and other banking activities via mobile phones, as well as easily gain wireless access.

Is Somaliland a telecommunications country?

Prior to Somaliland's re-independence in 1991, the telecoms sector was heavily monopolized by the central government led by the corrupt regime of Siad Barre. Since the overthrow of his regime, Somaliland has developed a modern and telecommunications industry with widespread mobile usage among the populace.
