

SolarInvert Energy Solutions

South Sudan exports energy storage equipment

Overview

What goods are exported from South Sudan?

The top 2 most valuable exported goods from South Sudan are crude oil and processed petroleum oils. Combined, South Sudan's leading pair of energy exports accounted for 95.7% of the country's overall revenues from export sales. Such a high percentage belies an intensely concentrated portfolio of exported products.

What are net exports in South Sudan?

In a nutshell, net exports represent the amount by which foreign spending on a home country's goods or services exceeds or lags the home country's spending on foreign goods or services. South Sudan has highly positive net exports in the international trade of crude oil and, to a much lesser extent, refined petroleum oils.

Does South Sudan export oil?

South Sudan has highly positive net exports in the international trade of crude oil and, to a much lesser extent, refined petroleum oils. In turn, these cashflows support South Sudan's strong competitive advantages under the mineral fuels-related product category.

What are the top exports of South Sudan in 2023?

In 2023, the top exports of South Sudan were Crude Petroleum (\$576M), Refined Petroleum (\$31M), Forage Crops (\$27.7M), Gold (\$27.4M), and Scrap Iron (\$14.9M). The top destinations were China (\$354M), Singapore (\$206M), United Arab Emirates (\$67M), Germany (\$29.6M), and Uganda (\$23.6M).

How did South Sudan improve export sales?

In second place for improving export sales was beverages, spirits and vinegar via a 1,332% advance. South Sudan's shipments of plastics including both as materials and items made from plastic articles posted the third-fastest gain in

value, up by 520.7%.

What is the main source of energy in South Sudan?

In South Sudan, over 96% depend on firewood or charcoal as their primary source of energy for cooking. While the country has abundant natural resources, it is heavily dependent on oil for its economy.
