

## SolarInvert Energy Solutions

# Southern Europe pack lithium battery

## Overview

---

Who manufactures lithium batteries in Europe?

As part of Seri Industrial S.p.A., FAAM operates the first mass production facility for lithium batteries in Southern Europe. Founded in 1974, the company has established itself as a significant contributor to Europe's energy transition through its eco-friendly manufacturing processes and sustainable battery solutions.

Is Europe achieving self-sufficiency in lithium batteries & EVs?

While North America is making strides, with substantial investments aimed at achieving self-sufficiency in lithium batteries and EVs, Europe has yet to reach a comparable level. Despite this, Europe is gaining momentum, with several prototype and full-scale battery plants underway.

Who are the partners for a lithium-ion battery project?

Among the partners for this project are Volkswagen, InoBat Auto, and CATL. This facility will focus on producing state-of-the-art lithium-ion batteries for electric vehicles and is expected to create around 4,000 jobs. Additionally, there are other projects in the early study or development phase.
