

## SolarInvert Energy Solutions

# Spain Smart Solar Power System

## Overview

---

is one of the first countries to deploy large-scale , and is the world leader in (CSP) production. Spain is also one of the European countries with the most hours of sunshine. I.

Through a ministerial ruling in March 2004, the Spanish government removed economic barriers to the connection of renewable energy technologies to the electricity grid. The Royal Decree 436/2004 equalised c.

In March 2007, Europe's first commercial concentrating plant was opened near the sunny city of . The 11 MW plant, known as the , produces electricity w.

Utility scale solar PV dominated the cumulative installed capacity in 2018 accounting for over 75% of the total in Spain although some sources would not define smaller sized installations as utility scale. Onl.
