What types of inverters can you buy at power gardens?

At Power Gardens, you can choose and buy any type of inverter that suits your needs. Here are the main types of inverters and their benefits: Grid-Tie Inverters: These are the most common and simple type of inverters. They connect your solar panels to the grid and allow you to sell your excess power

to the utility company.

What is a microinverter solar system?

Typically, microinverters are “distributed” inverters. Solar PV systems with microinverters have a small inverter installed for each individual solar panel. Instead of sending energy from every panel to a single inverter, microinverters convert the DC energy to AC energy on the roof itself.
