

SolarInvert Energy Solutions

Sri Lanka Island Photovoltaic Solar System

Overview

How much solar energy does Sri Lanka get?

According to the Asian Development Bank (ADB), Sri Lanka receives 4-6 kWh per square meter of solar insolation daily with around 5-7 hours of sunshine. This tropical climate allows for solar photovoltaic systems to operate effectively year-round.

Is Sri Lanka a good place for solar energy?

Sri Lanka is located close to the equator and receives abundant sunlight throughout the year, making it an ideal location for solar energy generation. According to a 2017 study by the Asian Development Bank (ADB), Sri Lanka has a high potential for solar power with an average solar insolation of 4-6 kWh/m² per day. How Does Solar Energy Work?

.

How does solar power benefit Sri Lanka?

Scaling up domestic solar generation will reduce reliance on imported coal and oil, improving energy security and current account deficits. The CEB expects solar power to account for 20% of generation by 2030 from zero today. How does solar power benefit the economy of Sri Lanka?

.

Which solar panels are best for Sri Lanka?

Monocrystalline and polycrystalline silicon panels are well-suited for Sri Lanka's climate. Monocrystalline panels made from a single silicon crystal tend to be slightly more efficient in high temperatures. Polycrystalline panels with silicon fragments are cheaper but marginally less efficient.

Why should you choose janka solar energy EPC service provider?

JLanka the leading solar energy EPC service provider offers solar solutions designed to maximize the return on investment. With a highly skilled EPC team consisting of expertise in engineering and technology, each project generates greater value with different customer experience.

What is Solar Resource Atlas of Sri Lanka?

The Solar Resource Atlas of Sri Lanka is an important addition to the existing knowledge on solar resources of Sri Lanka. The first solar atlas of Sri Lanka was prepared by the National Renewable Energy Laboratory (NREL) of USA, in 2005, as the Wind and Solar Resource Atlas of Sri Lanka and Maldives.
