

SolarInvert Energy Solutions

Sri Lanka New Energy Site Operation Company

Overview

How does Sri Lanka's new power plant work?

This power plant consists of General Electric turbines and is configured to run on natural gas in combined cycle. “This is a significant milestone for Sri Lanka’s transition to cleaner fuels and more reliable, affordable power,” said Wes Edens, Chairman and CEO of New Fortress Energy.

Why is Sri Lanka partnering with new fortress energy?

“This is a significant milestone for Sri Lanka’s transition to cleaner fuels and more reliable, affordable power,” said Wes Edens, Chairman and CEO of New Fortress Energy. “We are pleased to partner with Sri Lanka by investing in modern energy infrastructure that will support sustainable economic development and environmental gains.”.

What is Sri Lanka's first solar PV powered agrivoltaic pilot project?

The Asian Development Bank (ADB) together with the Ministry of Power and Energy (MOPE), and Ministry of Plantation Industries (MOPI) inaugurated Sri Lanka's first-ever semitransparent solar PV powered Agrivoltaic pilot project. This marks a significant milestone in the country's clean energy and agricultural landscape.

Who is Windforce & what is it doing in Sri Lanka?

Besides being the pioneers of renewable energy in Sri Lanka, WindForce has also expanded beyond its borders, and has contributed to plants in Pakistan, Uganda and Ukraine as well.

Where are floating solar projects located in Sri Lanka?

The first ever floating solar projects in Sri Lanka located in Kiriiban Wewa and Chandrika Wewa have been connected to the grid officially on a ceremony held on 27.11.2024. This signifies the addition of 2 MW generation capacity in the national grid.

Can agrivoltaics improve food security and energy access in Sri Lanka?

Agrivoltaics offers a unique opportunity to address both energy security in a land constrained country like Sri Lanka and its agricultural challenges. This project will serve as a model for wider applications for achieving sustainable food security and energy access in the country.
