

**SolarInvert Energy Solutions**

# **Swaziland photovoltaic panel equipment manufacturer**

## Overview

---

In terms of solar, manufacturing encompasses the fabrication or production of materials across the solar market chain. The most common product being manufactured by solar companies are the solar photovoltaic (PV) panels, which are made with several subcomponents such as solar wafers, cells.

In the simplest terms, manufacturing is the process of producing actual goods or items/products through the use of raw materials, human labour, use of.

Aside from the solar panels, solar companies have many other manufactured products that are required to make solar energy systems work smoothly, like solar.
