

## SolarInvert Energy Solutions

# Swedish power generation container company BESS

## Overview

---

When will a battery energy storage system be built in Sweden?

Construction has begun on Sweden's largest Battery Energy Storage System (BESS) undertaken by Neoen, an Independent Power Producer and Nidec, a system integrator. The project has been projected to come online in early 2025. Neoen is headquartered in Paris.

What is the largest Bess project in the Nordics?

Image source: Ingrid Capacity. The scheme is described as the largest BESS project built in the Nordics and the first two-hour system developed by Ingrid Capacity. The two companies initiated the project in 2022. Construction works are expected to start in 2026, while the commissioning is planned for 2027.

Where is the 10MW Bess project located?

The 10MW BESS will be strategically located in SE3, helping to stabilize the grid by providing ancillary and balancing services across frequency markets. "We are excited to deliver this project to our customer," said Magnus Häggström, Chief Commercial Officer at Helios Nordic Energy.
