

SolarInvert Energy Solutions

Swiss Energy Storage Power Station Investment and Franchise Enterprise

Overview

Which energy storage projects have been commissioned in Switzerland?

Axpo commissioned its BESS in February this year while utility Thurplus commissioned a 3MW system in September last year. But Switzerland was the location for one of the largest energy storage projects commissioned in recent years, a 20GWh pumped hydro energy storage (PHES) unit which started operations in June 2022 in the Canton of Valais.

Is MW storage the country's largest battery storage project?

MW Storage is a developer of BESS projects which is also active in the German market, with a 100MW/200MWh project underway that it claimed is the country's largest. The inauguration ceremony for the BESS project. Image: EWS AG. EWS AG and MW Storage have expanded a battery storage project in Switzerland to 28MW, making it the country's largest.

Is Bess being monetised in the Swiss electricity market?

It is being monetised in the Swiss electricity market by both CKW, part of Axpo, and utility Alpiq, the announcement said. The BESS is part of a network of power plants, consumers and batteries, it added. The large-scale BESS market in Switzerland has been relatively quiet with renewable penetration on the country's grid still relatively low.

Why is hydropower important in Switzerland?

Hydropower signifies an important step towards securing Switzerland's renewable energy future and aligns with the country's climate objectives. With a total installed capacity of approximately 3,300 megawatts, the hydropower plants generate more than five terawatt hours per year.

How many terawatts does Switzerland produce a year?

With a total installed capacity of approximately 3,300 megawatts, the hydropower plants generate more than five terawatt hours per year.

Hydropower is Switzerland's most important source of electricity, representing more than 60% of the nation's energy production.

Swiss Energy Storage Power Station Investment and Franchise Enter

New energy storage investment and franchise

New energy storage investment and franchise UNITS. Founded in: 2004
Franchising since: 1998 Franchise units: 40 Initial investment: \$460,022
-\$1,008,322 Royalty Fees: 8% UNITS
