

SolarInvert Energy Solutions

Swiss home energy storage battery manufacturer

Overview

In a collaboration with Münchner Solarkraftwerke, Lion E-Mobility AG, the Swiss manufacturer of lithium-ion battery packs, aims to deliver more than 40 energy storage projects, ranging from 5 to 150 MW, by 2028. These projects will be implemented as both stand-alone and co-located solutions. What is Swiss clean battery?

Swiss Clean Battery focuses on the stationary fields of application of “home storage” and “industrial buffer”, because the demand and contribution to solving problems in the energy transition is equally great here. An uninterrupted power supply, i.e. the balance between supply and demand, is essential for the power grid as a whole and for industry.

Which energy storage projects have been commissioned in Switzerland?

Axpo commissioned its BESS in February this year while utility Thurplus commissioned a 3MW system in September last year. But Switzerland was the location for one of the largest energy storage projects commissioned in recent years, a 20GWh pumped hydro energy storage (PHES) unit which started operations in June 2022 in the Canton of Valais.

Why should you choose Swiss clean batteries (SCB)?

Offering 50% better environmental performance and extended durability, SCB supports renewable energy transitions with advanced energy storage solutions and one of Europe’s first mass production facilities. Swiss Clean Battery AG (SCB) is a pioneering manufacturer of solid-state batteries based in Frauenfeld, Switzerland.

Where in Switzerland will Primeo energy install a battery storage system?

In Kappel, in the canton of Solothurn, we will install one of the largest battery storage systems in Switzerland with a total capacity of 65 megawatt hours. Primeo Energie will use the stand-alone storage system to make energy more flexible and store electricity temporarily and withdraw it again when it is needed.

Is MW storage the country's largest battery storage project?

MW Storage is a developer of BESS projects which is also active in the German market, with a 100MW/200MWh project underway that it claimed is the country's largest. The inauguration ceremony for the BESS project. Image: EWS AG. EWS AG and MW Storage have expanded a battery storage project in Switzerland to 28MW, making it the country's largest.

Does Switzerland's new large-scale battery support the Energy Strategy 2050?

The new large-scale battery for Switzerland in Kappel supports the Energy Strategy 2050 and supports renewable energies.
