

## SolarInvert Energy Solutions

# Swiss pack lithium battery manufacturer

## Overview

---

LiTHiUM System, formerly LiTHiUM Storage GmbH, headquartered in Illnau, Switzerland, has been supplying customers throughout Europe with high-quality lithium iron phosphate (LiFePO<sub>4</sub>) batteries since 2010. What is Swiss battery technology?

The Swiss Battery Technology has the potential to mass produce rechargeable batteries using a renewable organic cathode and in the near future. The extensive adoption of Li-ion batteries employed in electric cars and consumer electronics will need order of magnitude more natural resources to a large extent for the automotive industry.

Who makes lithium batteries?

LiTHiUM System works closely with partners in the immediate vicinity for the quantitative and qualitative production of prototypes. The lithium batteries from LiTHiUM System GmbH have already received several international awards, such as the 360 degree MOVE Award.

Why are Swiss batteries made from low-temperature materials?

Swiss batteries material are manufactured using low-temperature processes, which saves most of the large amounts of energy used by conventional battery manufacturing. In this way, we are reducing large amounts of the CO<sub>2</sub> emission during battery manufacturing.

Who makes Swiss clean battery?

When building the factory and equipping it with the necessary production facilities, Swiss Clean Battery draws on established and renowned partners. Jonas & Redmann (Berlin), Munters (Hamburg), Dalex (Knowledge) and Metha Bau (Amriswil), for example, are on board.

Who is lithium system?

LiTHiUM System, formerly LiTHiUM Storage GmbH, headquartered in Illnau,

Switzerland, has been supplying customers throughout Europe with high-quality lithium iron phosphate ( $\text{LiFePO}_4$ ) batteries since 2010. As one of the first in Europe we have added NMC cells with a high energy density to our assortment.

Why should you choose Swiss clean battery?

The high standardization of factory construction promotes economies of scale and rapid implementation, so that the total capacity of 7.6 gigawatt hours will be reached in just a few years. When building the factory and equipping it with the necessary production facilities, Swiss Clean Battery draws on established and renowned partners.
