

SolarInvert Energy Solutions

Swiss photovoltaic module prices

Overview

A normal solar power system for an average single-family home in Switzerland costs around CHF 15,000 after subsidies and tax savings. A solar power system is an investment that usually pays off and can generate profit over the entire service life of 30 years. Who makes Swiss solar modules?

SSWISS GROUP AG manufactures high-quality solar modules and is leading and globally active technology company. SWISS solar modules are engineered in Switzerland and meet the highest quality standards. As an internationally recognized premium brand.

Are Swiss solar panels a good investment?

In conclusion, Swiss Solar panels are a viable option to obtain clean and sustainable electric power from renewable sources, and can be a good long-term investment for companies or individuals looking to reduce their electricity costs and carbon footprint.

Is a solar roof suitable for a photovoltaic system?

Our Solar Calculator analyzes the profitability of a PV system for you. If the roof is suitable for a photovoltaic system, the question often arises: Is the investment worth it?

From a purely ecological point of view, this question can always be answered with a yes.
