

SolarInvert Energy Solutions

Swiss power storage module supplier

Overview

Who makes Swiss solar modules?

SSWISS GROUP AG manufactures high-quality solar modules and is leading and globally active technology company. SWISS solar modules are engineered in Switzerland and meet the highest quality standards . As an internationally recognized premium brand.

Why should you choose Switzerland for your energy storage solutions?

Nestled in the heart of Europe, Switzerland offers us the perfect location for global distribution. Our strategic position allows us to efficiently reach customers worldwide, ensuring that our advanced energy storage solutions are accessible wherever they are needed.

What is modular AG?

The founding year of Modual AG was characterized by the development of innovative ideas for using used cells in energy storage systems. The team worked intensively on the design and prototyping of these systems, developing a specialized Battery Management System (BMS) tailored to the specific requirements of the reused cells.

How does swisssem work?

Cars, buses, trucks and trains are either directly powered by electricity via catenaries or with on-board stored energy (originating from batteries or hydrogen). Our IGBT semiconductors drive the electric motors of the vehicles with a conversion efficiency way beyond 95%. SwissSEM is progressing at high speed.

Why should you choose Swiss Solar AG?

The state of the art design of solar the packaging and solar modules makes the product emotionally attractive to the most demanding customers. Stylish packaging sets the product apart from other producers. To be part of SWISS

SOLAR AG is to always be ahead.
