Tax rate for lead-acid batteries for communication base stations

Overview

How much does it cost to buy a lead-acid battery in Texas?

Texas imposes a fee on the sale of new and used lead-acid batteries. The fee is \$3 for each battery of 12 volts or more, or \$2 if less than 12 volts. What is a lead-acid battery?

A lead-acid battery is any battery that contains lead and sulfuric acid (see Health and Safety Code Section 361.138 (a) (2)).

Do you charge a fee to buy a lead-acid battery?

Purchases and sales of lead-acid batteries are subject to the below separate fees: The fee is imposed on the purchaser of a replacement lead-acid battery, which the retailer collects from the purchaser.

Who pays the battery sales fee & sales tax?

Because there is no sale, the seller pays the battery sales fee and sales tax to its supplier. If there is a charge for the replacement battery, the purchaser pays the battery sales fee and sales tax to the seller. How do I apply to collect the fee?

.

What is a lead acid battery?

Definition - means any new or used battery which contains lead and sulfuric "Lead- cid bat ery" acid. The battery sales fee is imposed at a rate of \$2 for a lead-acid battery with a capacity of less than 12 volts; \$3 for a lead acid battery with a capacity of 12 volts or more.

What is a lead-acid battery?

A lead-acid battery is any battery that contains lead and sulfuric acid (see Health and Safety Code Section 361.138 (a) (2)). Does the fee apply to all

sales of lead-acid batteries?

.

How do I collect a battery sales fee in Texas?

Those responsible for collecting the battery sales fee must complete Form AP-160, Texas Questionnaire for Battery Sales Fee (PDF), to create a battery sales fee account with us. Use Form 66-102, Texas Battery Sales Fee Report (PDF), to report and pay. \$2 per battery with a capacity of fewer than 12 volts.
