

SolarInvert Energy Solutions

The cheapest solar outdoor power supply

Overview

How much does a solar generator cost?

Since solar-powered generators are generally expensive, I've gathered some inexpensive options with a good online reputation. This post goes over three of the cheapest solar generators (aka portable power stations) that range from 150-200Wh of battery capacity and cost between \$100 and \$140.

Is a solar generator a good choice?

Since updating this article, there have been several additional reviews of this solar generator. Since 2020, it has retained its 4.3/5 stars on Amazon, which tells me that it continues to be effective for its users. Overall it is a powerful personal generator and you'll get a lot of good use out of it.

What is the fastest charging solar power bank?

You can read my review of it here: [Goal Zero Sherpa 100AC – Fastest Charging Solar Power Bank](#). Plain and simple, we browsed Amazon.com for solar generators, scrolled past all of the cheaper solar generators that had little customer feedback, and selected the least-expensive solar generators with the highest ratings (minimum 1,500 ratings).
