

SolarInvert Energy Solutions

Third-party investment in Vanuatu energy storage power station

Overview

Does Vanuatu have a low electricity access rate?

Vanuatu currently has one of the lowest electricity access rates in the world. Under the RESSET project, New Zealand will serve as the lead donor, providing the majority of funding for the installation of solar arrays and battery storage systems on Efate, near Port Vila, and the island of Tanna.

Does Vanuatu have a green energy fund?

With the National Green Energy Fund established and functioning, Vanuatu is well positioned to deliver renewable energy access and achieve energy savings across key economic sector including water, agriculture, fisheries, and tourism.

Does Vanuatu need electricity?

This initiative responds directly to Vanuatu's national climate goals and energy needs by improving access to clean and reliable electricity. Vanuatu currently has one of the lowest electricity access rates in the world.
