# Tonga Energy Storage Project Investment Plan

## Overview

---

How will Tonga move away from fossil fuels?

This project aims to help Tonga move away from fossil fuels and shift to renewables. The project will deliver utility-scale storage systems to provide base load response and grid stability, paving the way for more renewable energy integration in the main island, while green mini-grids will be installed in the outer islands.

How can Tonga transform its energy sector?

The Government of Tonga has formulated targets to transform its energy sector by achieving a 50 percent share of renewables in the country's energy generation mix by 2020 and 70 percent by 2030. However, achieving these targets require catalytic investments to transform the country's energy infrastructure.

How much does the project cost in Tonga?

Partners include SPC. The estimated cost of this project is US\$15 million, and it has an estimated timeframe of 5 years. Partners include SPC. The estimated cost of this project is US\$15 million, and it has an estimated timeframe of 5 years. 2021 -2026. communities including in Tonga more resilient to climate change. This will.

Is Tonga serious about creating a future energy system?

Tonga has proven through the past decade of TERM implementation that it is serious about creating this future energy system. Some of Tonga's impressive accomplishments from period include On track to reach renewable electricity of 50%.

What are Tonga energy road map term policies?

From 2010-2020, the Tonga Energy Road Map TERM policies provided a least-cost approach and implementation plan to reduce Tonga's vulnerability to oil

price shocks and achieve an increase in quality access to modern energy services in a financially and environmentally sustainable manner.

How do mitigation opportunities work in Tonga?

Each of the mitigation opportunities in Tonga's project pipelines have different funding potential. Some projects are likely to be commercially viable – that is, they can be funded by users. Users may either be willing to pay more due to better service or fund the project because it delivers cost savings to them.
