

SolarInvert Energy Solutions

Top Five Photovoltaic Inverters

Overview

Which solar inverter should I buy in 2025?

Every solar system needs some kind of inverter to convert sunlight into usable electricity. CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025.

Which solar inverter is best?

The SolarEdge Home Hub is the highest-rated solar inverter on the EnergySage Marketplace, thanks to its top-notch efficiency, solid voltage performance, and extended warranty. It's a 10-kilowatt (kW) optimized string inverter that offers the best of both worlds: plenty of output power and panel-level optimization.

What are the different types of solar inverters?

There are three main types of solar inverters: string inverters, optimized string inverters, and microinverters. The best choice for your system mostly depends on your roof's layout and conditions.

Which solar inverters are used in ratedpower?

The brands of the top five solar inverters used in the utility-scale PV projects modeled in RatedPower are Huawei, Sungrow, and ABB. Huawei's string inverters tend to be the most popular in Europe, Sungrow's string and central inverters are popular in Asia and Latin America, and ABB's central inverters are used in Latin America and Europe.

Who makes the best solar string inverter?

We review the best grid-connect solar inverters from the worlds leading manufacturers Fronius, SMA, SolarEdge, Fimer, Sungrow, Huawei, Goodwe, Solis and many more to decide who offers the highest quality and most reliable solar string inverters for residential and commercial solar.

What is the most expensive solar inverter?

EnergySage data from the second half of 2024 shows that solar panel systems with this SolarEdge inverter cost \$2.90 per watt (that includes the inverter and solar panels), making the Home Hub the most expensive inverter on our list.

2. Best voltage performance: Tigo EI Inverter TSI-7.6
