

## SolarInvert Energy Solutions

# Tunisian power plant solar panel manufacturer

## Overview

---

Ifrisol, based in Tunisia, has been manufacturing its solar panels since 2013, with hundreds of installations around the world. The company expanded its European operations and project pipeline. What is a photovoltaic power plant in Tunisia?

In Tataouine, in the governorate of Tunisia that goes by the same name, a photovoltaic power plant is in operation that can reach a maximum installed capacity of 10 MW to supply more than 20 GWh of energy per year to the national grid. The plant is equipped with a solar tracking system that optimises the energy that is produced.

Will Tunisia's first large-scale solar export project go to Italy?

Till Stenzel, COO of Nur Energie presented to an audience of over 75 energy professionals and policy-makers its project plans for a first large-scale solar export project from Tunisia to Italy. In Tunisia, Nur Energie is developing the world's first CSP solar export project between North Africa and Europe.

What is TuNur energy doing in Tunisia?

In Tunisia, Nur Energie is developing the world's first CSP solar export project between North Africa and Europe. For more information about the TuNur project please visit the TuNur company website: .

How much electricity does a solar system produce in Tunisia?

In other words, for every kilowatt-peak (kWp) of installed solar capacity, the system can generate approximately 1650 kilowatt-hours (kWh) of electricity per year. 2 As of March 2022, the price of electricity in Tunisia stood at \$0.07 per kilowatt hour (kWh) for households, making it an affordable option for residential consumers.

Why should you invest in solar power in Tunisia?

Nur Energie has built and maintained a solar weather station for 3 years on

the TuNur site to receive real time solar data on the ground. Tunisia has up to 20% better radiation than some of the best sites in Europe, and the Sahara desert provides significant land to develop large scale solar power projects.

How much does electricity cost in Tunisia?

As of March 2022, the price of electricity in Tunisia stood at \$0.07 per kilowatt hour (kWh) for households, making it an affordable option for residential consumers. In contrast, businesses in Tunisia faced a slightly higher rate of \$0.10 per kWh, reflecting the differing energy demands and usage patterns between the two sectors. 3
