

SolarInvert Energy Solutions

Tuvalu household energy storage power supply procurement

Overview

How TEC is powering Tuvalu with renewable resources?

TEC has set a vision of “Powering Tuvalu with Renewable Resources” and this align well with the Tuvalu Government set target of 100% renewable energy by 2025. All the islands of Tuvalu are on 24/7 power supply and the access rate is 100%. The outer islands are powered by hybrid solar PV system with diesel generator on standby.

What is the Tuvalu solar power project?

The Government of Tuvalu worked with the e8 group to develop the Tuvalu Solar Power Project, which is a 40 kW grid-connected solar system that is intended to provide about 5% of Funafuti 's peak demand, and 3% of the Tuvalu Electricity Corporation's annual household consumption.

What is Tuvalu's energy policy?

Tuvalu commits to reduction of emissions of green-house gases from the electricity generation (power) sector, by 100%, ie almost zero emissions by 2025. Tuvalu's indicative quantified economy-wide target for a reduction in total emissions of GHGs from the entire energy sector to 60% below 2010 levels by 2025.

How much electricity does Tuvalu produce?

Installed electrical capacity totaled 2,600 kW in 1990. Both production and consumption of electricity amounted to 3,000,000 kWh, or 330 kWh per capita, in 1995. The Tuvalu Solar Electric Cooperative Society, formed in 1984, provides a limited supply of photovoltaic electricity.

How can TEC help Tuvalu move towards a low-emissions future?

Helping Tuvalu move towards a low-emissions future by powering with Renewable Energy. Leadership ensures everything outlined in TEC's plan comes to fruition, that all activity is aligned to the company's strategic pillars

and that the company is on track to achieve its goals.

Are low-income households benefiting from subsidization of tariffs in Tuvalu?

Purchasing electricity has been identified as the second highest household commodity expenditure in Tuvalu but consumption across the country is not even. Low-income households, especially in rural areas, may not be gaining a good share of the potential social, poverty, and gender benefits from subsidization of tariffs.
