

## **SolarInvert Energy Solutions**

# **U S Energy Storage High Power Supply Wholesale**

## Overview

---

What is the market share of energy storage in 2024?

By technology, batteries led with 82% of the United States energy storage market share in 2024, while hydrogen storage is projected to expand at a 28.5% CAGR through 2030.

What is the US energy storage monitor?

The US Energy Storage Monitor is offered quarterly in two versions- the executive summary and the full report. The executive summary is free, and provides a bird's eye view of the U.S. energy storage market and the trends shaping it.

What is the future of energy storage?

Renewable penetration and state policies supporting energy storage growth  
Grid-scale storage continues to dominate the US market, with ERCOT and CAISO making up nearly half of all grid-scale installations over the next five years.
