

SolarInvert Energy Solutions

UAE user-side energy storage products

Overview

Why is energy storage important in Dubai?

“We follow the vision and directives of His Highness Sheikh Mohammed bin Rashid Al Maktoum, Vice President and Prime Minister of the UAE and Ruler of Dubai, to ensure energy security and sustainability. Energy storage is a vital aspect in ensuring energy sustainability and increasing the reliance on clean and renewable energy sources.

Is UAE a sustainable country?

For the UAE, renewable energy is a core pillar of its sustainability plans. Masdar, the UAE’s clean energy powerhouse, is among the organizations supporting the country’s efforts, both home and abroad. For instance, Masdar has committed to invest £1 billion (AED4.68 billion) in UK battery storage.

Are battery energy storage systems a viable solution?

Battery energy storage systems (BESS) are one viable solution. An advanced technological solution, they function by storing renewable energy which can then be used when power is required. They help address the challenge of intermittent renewable energy, and provide clean power 24 hours a day, no matter the weather conditions.

UAE user-side energy storage products

Why battery energy storage systems are the future of the UAE's ...

These storage systems can effectively delay or avoid expensive transmission upgrades, reducing the cost of renewable projects. Having sufficient battery storage systems is ...
