Use of silent power generation container

Overview

What is a container type generator set?

The container type generator set is installed in the container. It is designed and manufactured specially for the power supply of field engineering. The power of the genset is generally above 500KW. There are many types of generators. According to the engine speed, they can be divided into high, medium and low speed generators.

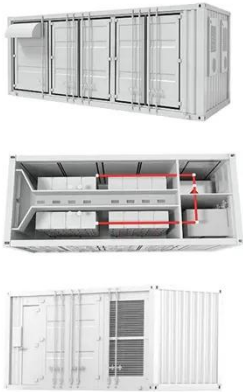

What is a container type diesel generator set?

⑤ Container Type Diesel Generator Set The container type generator set is installed in the container. It is designed and manufactured specially for the power supply of field engineering. The power of the genset is generally above 500KW. There are many types of generators.

Where can a portable power container be used?

The MOBIPOWER portable power container can be used virtually anywhere on the planet and will produce and store all the power you will need.
