Uzbekistan Battery Site Cabinet

Overview

Is Uzbekistan ready for a grid-scale battery energy storage project?

Image: Ministry of Energy of Uzbekistan From pv magazine ESS News site
Uzbekistan is in line for its first grid-scale battery energy storage project as it seeks to stabilize and strengthen its existing electricity grids and ramp up the uptake of renewable energy.

Will Uzbekistan fund a 250-megawatt solar photovoltaic plant?

TASHKENT, May 21, 2024 — The World Bank Group, Abu Dhabi Future Energy Company PJSC (Masdar), and the Government of Uzbekistan have signed a financial package to fund a 250-megawatt (MW) solar photovoltaic plant with a 63-MW battery energy storage system (BESS).

What is Uzbekistan's First Bess project?

In May, Nur Bukhara Solar PV LLC FE, a project company owned by Masdar, set out to build a 63 MW battery energy storage system alongside a 250 MW solar plant in the Alat district of the Bukhara region, billed as Uzbekistan's first big BESS project. Most major announcements, however, came from the Saudi Arabian developer itself.
