

SolarInvert Energy Solutions

Uzbekistan energy storage photovoltaic panel manufacturer

Overview

Will Uzbekistan fund a 250-megawatt solar photovoltaic plant?

TASHKENT, May 21, 2024 — The World Bank Group, Abu Dhabi Future Energy Company PJSC (Masdar), and the Government of Uzbekistan have signed a financial package to fund a 250-megawatt (MW) solar photovoltaic plant with a 63-MW battery energy storage system (BESS).

Who will sell electricity to in Uzbekistan?

The project company is committed to selling electricity to the state-owned National Electric Grid of Uzbekistan JSC under a 25-year Power Purchase Agreement for the project, including a 10-year operating term for the BESS component, signed by these two entities.

How will Uzbekistan improve its energy security?

“This project will enhance Uzbekistan’s energy security through the use of innovative solutions and technologies,” noted Marco Mantovanelli, World Bank Country Manager for Uzbekistan.

How many photovoltaic stations have been installed in the Republic?

We have enough experience in the production, design, installation and installation of solar modules, autonomous, light and hybrid photovoltaic stations of any capacity. To date, over a thousand photovoltaic stations have been installed by the company’s specialists in all regions of the Republic.

Can solar panels be integrated with energy storage systems?

Solar panels can be integrated with energy storage systems that accumulate the generated energy for use at night or during periods of low solar activity. You can order solar panels together with battery systems to create an autonomous power supply system.
