Vatican Base Station Wind Power Supply

Overview

Why does the Vatican have a solar system?

The Vatican's solar shift is a culmination of a political and spiritual mission years in the making. In 2024, the late Pope Francis issued an apostolic letter ordering the construction of an agrivoltaic solar plant to supply the Vatican with energy from Santa Maria di Galeria. On the same site, the new solar infrastructure now stands.

Will Vatican City run on solar power?

A letter entitled 'Brother Sun' laid out the pontiff's plans. Pope Francis has renewables on his mind as he says he wants Vatican City to run on solar power. To achieve his aim, solar panels will be installed on a Vatican-owned property outside Rome. The power generated could supply all of Vatican City's energy needs.

Where is the new Vatican Radio system being built?

The construction will take place on Vatican property approximately 11 miles from Rome, in the area of Santa Maria di Galeria. The property is currently used for broadcasting Vatican Radio. The system will combine renewable electricity production with the needs of the underlying agricultural land.

Why did Acea install a solar energy system in Vatican City?

This project was carried out by ACEA, an Italian utility company, which installed systems to meet all of the Vatican's energy demands. What makes this significant is not the size, but that Vatican City is only 0.49km², and there was no loud campaign, no press tour, just action set in stone and implemented.

Will a Vatican Radio station be installed in 2025?

The future installation would be projected to "ensure, not only the power supply of the radio station existing there, but also the complete energy

support of Vatican City State,” he wrote. Fast forward to 2025, and the project is completed.

Will Vatican City become a fully solar-powered state in 2025?

By May 29th, 2025, that vision was fulfilled, and the Vatican City became one of the only fully solar-powered states in the world, setting a clear precedent on how belief and sustainability can align.
