

SolarInvert Energy Solutions

Vietnam Monocrystalline Photovoltaic Panel Purchasing

Overview

Specifically, high-quality monocrystalline panels cost dropped from \$0.34/W in 2022 to \$0.28/W in 2024. Analysts expect further reductions of 3-5% per year through 2027, thanks to economies of scale and manufacturing efficiency improvements . On consumer side, installation costs vary by system size. How big is Vietnam solar panel market?

For further assistance, please connect with our analysts. Vietnam solar panel market size reached 1.2 Gigawatt in 2024, the market expected to reach 2.4 Gigawatt at a CAGR of 7.87% during 2025-2033.

Are solar panels regulated in Vietnam?

Vietnam's solar panel trade is regulated under Decree 26/2023/ND-CP, which outlines the Schedule of Export Tariffs and Preferential Import Tariffs. This decree, effective from July 15, 2023, sets specific import duties on goods, including solar panels and related components.

How has the FIT program impacted solar power development in Vietnam?

The FiT program has been a major driver of solar power development in Vietnam, offering a tariff of 9.35 cents per kilowatt-hour (kWh) for projects completed by June 2019. This program led to a surge in solar capacity, reaching 4.46 gigawatts of new installations.
