

## SolarInvert Energy Solutions

# Vietnam energy storage power supply manufacturer

## Overview

---

Is Vietnam a good market for energy storage solutions?

Vietnam represents a promising market for German and European small and medium-sized enterprises (SMEs) specialising in energy storage solutions, thanks to their technical expertise and established reputation in RE technologies.

Why do we need battery energy storage systems in Vietnam?

At the same time, the demand for battery energy storage systems (BESSs) is accelerating, driven by Vietnam's abundant renewable energy (RE) potential, particularly in solar and wind power. However, owing to the intermittent nature of these energy sources, storage solutions are required to ensure continuous electricity supply.

Why is Vietnam developing a battery industry?

In recent years, Vietnam has witnessed significant developments in its battery manufacturing technology. Driven by the growing demand for energy storage solutions, the expansion of the electric vehicle market, and the government's push towards renewable energy, the country's battery industry is evolving rapidly.

Why is the demand for battery energy storage systems accelerating in Vietnam?

Export-oriented businesses, especially in manufacturing, are under growing pressure to meet stringent requirements. At the same time, the demand for battery energy storage systems (BESSs) is accelerating, driven by Vietnam's abundant renewable energy (RE) potential, particularly in solar and wind power.

Who is the leading lithium battery supplier in Vietnam?

Company Profile: According to Volza's lithium battery export data of Vietnam,

Samsung Electronics Vietnam Co., Ltd. is the leading lithium battery supplier in Vietnam, accounting for 56% of the total with 15,696 shipments. It is a subsidiary of the globally renowned Samsung Group and has established a large-scale production base in Vietnam.

How a Bess project is promoting energy storage in Vietnam?

Encouraging domestic enterprises to invest in new technologies will promote the growth of the energy storage industry in Vietnam. Investment in BESS projects in Vietnam is attracting the attention of international partners due to the country's strong potential for RE development.
