Vietnam outdoor power supply specifications

Overview

Vietnam uses power outlets and plugs of types A, B, C, D & G. Take a look at the pictures below to see what these plugs and power sockets look like: 1. Type A- Mostly used in the US, Canada, Mexico, Central America, China and Japan. No other plug types will.

Below are the answers to some of the most frequently asked questions about Vietnam outlets and power plugs: .

All power sockets in Vietnam provide a standard voltage of 220V with a standard frequency of 50Hz. You can use all your equipment in Vietnam if the outlet voltage in your own country.

What type of power plug is used in Vietnam?

The voltage used in Vietnam is 220V with a frequency is 50Hz, and the plug type used is Type A/C (the most common) or Type A. Power plug Type A/C is also common and used in all Indochina Countries, such as Laos, Thailand, Cambodia, and Myanmar. Type A/C plugs are two-pronged, flat, and non-grounded, while Type A with two flat parallel pins.

What type of plug do you need in Vietnam?

Vietnam's standard voltage is 220V, and the power frequency is 50Hz. The commonly used plug types are A, B, and C. In Vietnam, you will typically need a plug adapter, but not a voltage converter. Major mobile network operators include Viettel, MobiFone, and Vinaphone, which support 4G networks, making it very useful for travelers.

What type of electrical outlets are used in Vietnam?

The electrical outlets commonly found in hotels, motels, restaurants, and homes in Vietnam are usually vietnam electric plug type A and C. Some hotels may also have type B, D, and G sockets. In France, only type C plugs are used, which are different from the sockets in Vietnam (types A, B, D, and G).

What voltage does Vietnam use?

The good news is that it's easy to find the most up-to-date information on the voltage in Vietnam, so you'll know exactly what type of plug adapters or power strips you'll need to bring with you. The majority of Vietnam operates on a 220-volt system, but you will find outlets operating at both 110 and 240 volts.

What is the electricity supply like in Vietnam?

Vietnam's electricity supply is quite different from many countries. You'll need to be prepared for any outages (luckily not so often), surges, and different voltages.

How many types of plug sockets are there in Vietnam?

There are 5 types of electric plug sockets in vietnam commonly used: A, B, C, D and G. Below are the shapes of these 5 sockets as well as the plug types compatible with these sockets: Type A : Type A, a Vietnam electrical outlet plug, has two vertical pins. So, a type A socket has two flat slots next to each other.
