

SolarInvert Energy Solutions

Vietnam photovoltaic energy storage lithium battery

Overview

Why should Vietnam invest in a lithium battery?

The declining cost of lithium battery cells, coupled with technological advancements, has made BESS increasingly affordable and accessible, according to Contemporary Amperex Technology, the world's largest battery manufacturer. Vietnam should capitalise on this trend to attract investment, create green jobs, and enhance energy security.

How much solar power does Vietnam have?

Vietnam's Eighth National Power Development Plan, published in 2023, also acknowledges that the country's solar potential is an estimated 963GW of capacity, and the government has since made moves to provide offtake tariffs and better enable onsite self-consumption.

Did Marubeni launch a megawatt-scale battery storage demonstration project in Vietnam?

The project's official inauguration event held in December. Image: VinGroup. A green energy subsidiary of Japanese conglomerate Marubeni has brought online a megawatt-scale battery storage demonstration project in Vietnam.
